

We're customers helping to announce a brand new line of yarns conceived by Susan Gibbs, owner of Juniper Moon farm! Through her 7 years shepherding and in creating the first ever yarn CSA, Susan has developed a huge following of customers who have responded to her lifestyle and what she stands for. It's that back-to-your-roots feeling that is inherent in every knitter, and now that they're able to make Farm Fresh Yarn available to anyone at any time, we'd like you to please consider stocking their full line in your shop. Thank you!
